

# the fine art of intricate duplication.

There is no pump part so complicated that ProCast can't replicate it, quickly and inexpensively. Our laser measuring technology and digital patterning process make an exacting mold of the original—and our foundry and machining services do the rest. What emerges is a piece of pure hand-crafted precision, ready to bolt in and go to work. Visit [procastparts.com](http://procastparts.com) or call 1-800-543-6263.
